To All Concerned:

On behalf of the City and County of Honolulu, Department of Design and Construction (DDC), we invite you to attend a public information meeting for the subject project on Wednesday, April 2, 2014 from 6:30 pm to 8:00 pm. The meeting will be held at the Aikahi Elementary School cafeteria, located at 281 Iliha Street, Kailua, HI 96734.

The purpose of the meeting is to discuss DDC's application for a Community Noise Variance for the Kaneohe-Kailua Sewer Tunnel Project which involves construction of approximately 3 miles of a 10 foot diameter tunnel from the Kailua Regional Wastewater Treatment Plant (KRWWTTP) to the Kaneohe Pre-Treatment Facility. The variance is being requested to allow tunneling operations from the tunnel's launching shaft located within the KRWWTTP during nighttime hours. Tunneling will be performed Monday through Saturday, 24 hours a day. Duration of the work covered under the noise variance will last approximately 1 and a half years. Construction activities that emit high noise levels will be restricted to daytime hours and will not be included in the nighttime noise variance.

We will be presenting the project scope, objectives, schedule, and potential impacts, and soliciting your comments and concerns. Although some inconveniences may be unavoidable, DDC's goal is to work with you to minimize the potential impacts.

For more information regarding the meeting, please contact Mr. Richard Harada or Ms. Lauren Yasaka of our office at (808) 946-2277.

Sincerely,

Richard Harada,
Project Manager

cc: Mr. Glenn Okita, DDC
